PROFESSIONAL SUMMARY

Solutions Architect with 3+ years across the modern data stack: dbt, Redshift, BigQuery, Power BI. Ex-dbt Labs, where I partnered with AEs on technical discovery and demos across commercial opportunities, including deals over \$100K. Deep analytics engineering background: built and maintained production dbt transformations powering enterprise BI.

RELEVANT EXPERIENCE

CorralData – Solutions Architect / Technical Account Manager

Dec 2025 – May 2026

- Owned the full lifecycle for a portfolio of ~10 accounts as primary technical contact, from onboarding through renewal.
- Personally onboarded 2 new customers from zero, turning KPIs into production datasets and decision-ready BI dashboards.
- Cut time-to-first-dashboard from several weeks to about two, improving further as I built and shared new Claude skills.
- Built a Claude skills library that automated recurring work, saving ~10 hours weekly, plus docs that sped up new-hire ramp.

dbt Labs – Solutions Architect

Jun 2025 – Sep 2025

- Partnered with 3 commercial AEs across ~7 active opportunities, running ~50 discovery/demo calls over a 10-week ramp.
- Led technical discovery to surface quantifiable pain, tailoring dbt Cloud demos to each customer's architecture and goals.
- Delivered high-fidelity demos that proved value up front, qualifying so well that only 1 of 7 opportunities needed a POC.
- Ran demos on a shared SA environment (a dbt project wired to Snowflake and Tableau) to show live, realistic workflows.

Association Analytics – Analytics Engineer

Jun 2022 – Jan 2025

- Maintained scalable data transformations using Redshift, SQL, and dbt, improving data processing efficiency by 30%.
- Developed, maintained, and refactored dbt packages and GitHub repositories, enhancing code reusability and collaboration.
- Deployed Power BI datasets, resolved data quality issues, and ensured 95% data accuracy on ETL pipelines.
- Actively participated in discovery calls, providing technical insights to stakeholders and fostering strong client relationships.

EARLIER EXPERIENCE

Amazon – Area Manager

Jun 2021 – Sep 2021

- Managed and coached a team of 50–200 associates, improving productivity 15% through training and quality standards.

Prudential Financial – Data Engineering Intern

Jun 2019 – Aug 2019

- Built a Splunk dashboard to monitor fast data exchange jobs, reducing troubleshooting time by 40%.

GITHUB PROJECTS

Budget Buddy – Finance Management Tool (Claude, Python, iOS)

Aug 2023 – Present

- Used Claude to turn a personal Python budgeting script into a native iOS app, self-teaching the build process end to end.
- Designed as a deliberately manual, input-only tool (no bank connections), prioritizing speed and privacy.

TECHNICAL SKILLS

- **Data Stack:** dbt (Core + Cloud) · SQL · Python (Pandas, NumPy) · data modeling (dimensional / star schema) · Redshift · BigQuery · Snowflake · Databricks
- **Pipelines & Engineering:** Fivetran · Airbyte · Airflow · Git/GitHub · CI/CD for analytics (GitHub Actions, dbt CI)
- **Cloud & BI:** AWS (S3, Redshift, Secrets Manager) · GCP · Power BI (DAX) · Splunk (SPL) · Jupyter
- **AI/LLM:** Claude · Claude Skills · AI-assisted workflow design
- **Integrations:** JSON · Salesforce · HubSpot · GA4 · 10+ vertical SaaS platforms (association management, health/wellness)
- **Collaboration:** Notion · Linear · Confluence

EDUCATION

Cornell University – Ithaca, NY

Bachelor of Science in Information Science – Concentration in Data Science
